Part I – BUSINESS AND GENERAL INFORMATION

Item 1. Business

ISM Communications Corporation (“ISM” or the “Group”) was, originally, a mining company incorporated in March 1925, under the name “Itogon-Suyoc Mines, Inc.”. In the early 2000, ISM was transformed to a company engaged in information technology, multimedia telecommunications, and other similar industries. On November 11, 2016, the Securities and Exchange Commission approved the amendment of the articles of incorporation of ISM to reflect its primary purpose as a holding company.

ISM continues to hold 32.5% in the German technology firm, Acentic GmbH (Acentic). Headquartered in Cologne, Germany, Acentic is a leading provider of Internet connectivity and in-room entertainment solutions for the hospitality industry offering digital and Internet protocol (IP) converged services to hotels, serviced apartments and healthcare facilities. Its digital television services and Internet access platforms are found in many of the world’s leading hotel rooms in more than 40 countries across Europe, the Middle East and Africa. In recent years, the global hospitality industry has undergone a technological re-assessment with major groups reducing their approved vendor partners via stringent accreditation processes (focused on technology, operational and support capabilities). Acentic has passed all of these assessments to date and is now fully accredited with Marriott, Hilton and InterContinental Hotels Group - the world’s top three largest groups - amongst others, driving growth in traditional markets but also supporting development in new regions. To accommodate this growth, Acentic has opened operations in South Africa and in Dubai to serve the Middle East and has already secured significant and high-profile contracts in both regions. Acentic equipment is installed in over 500 hotels with over 100,000 hotel rooms under contract across Europe, the Middle East and Africa. The UK, which accounted for 46% of Acentic’s EBITDA in 2016, is by far the most profitable market for hotels in Europe due to its greater number of international group-based hotels that have a broader supply of entertainment systems, allowing for more pull-through revenues and related margins. Europe represents the most significant geographic region for the business. However, the greatest growth is forecast from Middle East and Africa in line with the hotel industry’s own development in these regions. 90% of Acentic’s operating revenue is guaranteed through long-term contracts (between 3-5 years) with the majority of contracts renewed at maturity, highlighting the strength of Acentic’s commercial relationships and the relevance of its product. On December 31, 2017, Acentic executed the restructuring plan of the Acentic Group, which includes among others, moving the headquarters from Germany to UK. In line with this restructuring, ISM, through Host Union, applied for the allotment and issuance of 325 ordinary shares of Acentic’s new parent company, Acentic Holdings Limited.

Another significant investment held by ISM is its stake in the Philippine Bank of Communications (PBCOM). Currently, the Company owns 4,806,987 common shares of PBCOM, which is equivalent to 1.00% of PBCOM’s outstanding capital stock.

As at December 31, 2012, the equity interest of the Company remains the same as the application for the increase in the authorized capital stock of PBCOM is still pending approval from the SEC. The increase in the authorized capital stock of PBCOM was approved by the SEC on March 11, 2013. Thus, as a result, the Company's stake in PBCOM was reduced to 21.38%.

On September 18, 2014, P.G. Holdings, Inc. (PGHI) subscribed 181,080,608 newly-issued common shares of PBCom. The subscription of PGHI was approved by the BSP on September 23, 2014. Subsequently, the Group's interest in PBCom was diluted to 13.33%. Correspondingly, the Group recognized a loss on dilution totaling ₱82.8 million and the proportionate amount of its share in the cumulative other comprehensive income of PBCom amounting to ₱405.0 million was recycled to profit and loss.

The Group lost its significant influence over PBCom due to the dilution of the Company's interest. Consequently, the Group's remaining investment in PBCom was

reclassified to AFS financial assets and recognized gain amounting to ₱764.0 million on the difference between the fair value of the investment over the carrying amount of the investment at the date the significant influence was lost. (as reported in the 2014 audited FS)

It also includes foreign exchange gains and losses on the notes receivable being charged to the Company in accordance with their agreement.

Notes Payable

Notes Payable as of December 31, 2015 totals ₱408 million. This represents the €7.893 million loan from HSBC secured by Money Market Placement. The decreased from ₱429 million in 2014 to ₱408 million in 2015 is mainly due to foreign currency translation adjustment.
